About Us

Our company provides live music and entertainment services for the hospitality industry, public sector, corporate companies and private clients.

Our professional and friendly staff will work with you to achieve what you want. We will listen, and give advice to help you decide on what is best.

Styling an event with live entertainment goes hand in hand with thinking outside the box. Using entertainment to strengthen an event's theme, act as a central focus point or complete the atmosphere sends a clear message that you know how to get that edge.

About Our Acts

Our professional performers will share their expertise to make sure that the entertainment is a big success all around.

Our acts are seasoned and skilful entertainers who are trained to perform for large and small events.

About Your Experience

We believe that your experience should be exactly what you want.

Whether a request requires a child of six giving a virtuoso string performance or a bus load of circus performers dressed as space-age moonwalkers, each experience can be and should be unique.

When entertainment is tailored to suit the booking it means a unique signature is imprinted on each event to create a long lasting memory.

Unique

Clients who are interested in adding the option of live entertainment to their celebration events or private functions, are welcome to explore the options of live music, DJs or general entertainers. Live entertainment can be tailored to exactly match your clients needs and does not have to be costly, large or even loud. We can create the perfect backdrop or main stage environment for any event day or evening event.
